

**Colorado Chapter  
American Society  
of Safety Engineers**

*ONE-DAY PROFESSIONAL DEVELOPMENT COURSE  
REGISTRATION FORM*

## **Environmental Regulation Basics for the Safety Professional**

**PRESENTED BY: ASSE COLORADO CHAPTER & CCA**

**Your instructors:** Janet Burgesser/ Rob Cochrane – Denver PPP – General Environmental Regulations  
Edward Smith – CDPHE – RCRA Hazardous Waste Generation  
David Cobb – US EPA – SARA Title 3  
Jeffrey Citrone – IMA – Spill Prevention, Control and Countermeasures  
Bill Robinson – Stormwater Risk Management – Storm Water

**Date:** March 17, 2010  
**Time:** 8:00 a.m. – 4:00 pm  
**Location:** CCA Conference Center  
6880 S. Yosemite Ct, Suite 200  
Englewood, CO 80155

# **Environmental Regulation Basics for the Safety Professional**

**AGENDA**  
**March 17, 2010**

**8:00 am – 8:15 am    Introductions**

**8:15 Am – 9:45 AM    General Environmental Regulations**  
**Janet Burgesser/ Rob Cochrane – City and County of Denver, Department of Environmental Health**

This presentation will briefly outline the following areas: air quality regulations and water quality regulations. During this presentation one will learn the difference between attainment and non-attainment air quality areas; specific air regulation requirements for specific industries; what and where fugitive air emissions might occur; differences in regulations relating to storm drains versus sanitary sewer drains; and the requirements for discharging process waters.

**9:45 AM – 10:00 AM    Break**

**10:00 AM – 11:30 AM RCRA Hazardous Waste Generation**  
**Edward Smith – CDPHE**

This presentation will provide an overview of the hazardous waste regulations beginning with how the regulations were codified and why. Then discuss how a hazardous waste determination is made and the regulatory requirements that apply to the three categories of hazardous waste generators. Finally, it will conclude with a case study involving a facility that knowingly mismanaged hazardous waste.

**11:30 AM – 12:30 PM    Lunch**

**12:30 PM – 2:00 PM    SARA Title 3**  
**David Cobb – US EPA**

This presentation will present the history of SARA Title III and related statutes, including: EPCRA 302-303: Emergency Preparedness Requirements, EPCRA 304/CERCLA 103: Release Reporting Requirements, EPCRA 311/312: Inventory Reporting, and EPCRA 313: Toxic Release Inventory. Additionally, this presentation will discuss various related statutes regarding a facility Risk Management Plan and a facilities general duty with respect to the communities right-to-know about hazardous chemicals.

**2:00 PM – 3:00 PM    Spill Prevention, Control and Countermeasures**  
**Jeffrey Citrone – IMA**

This presentation will discuss the applicability and requirements of the Oil Pollution Prevention Act. Specific topics will include what is considered regulated oil; what are the threshold amounts that must be present at a facility to trigger the planning requirements; what must be included in a SPCC plan; and what follow-up must be done to stay in compliance with the regulations.

**3:00 PM – 3:15 PM    Break**

**3:15 PM – 4:15 PM    Storm Water**  
**Bill Robinson – Stormwater Risk Management**

This presentation will present the requirements for Storm Water Pollution Prevention Plans, with special emphasis on vertical build projects.
